LIFEBOAT

EFE MARINE SAFETY

EFE MARINE SAFETY is the foremost Turkish company providing maritime safety solutions. Relying on our experience of over lifeboat servicing 10 years, EFE MARINE SAFETY strives to enable your freedom at sea. We shall achieve this by ensuring proper functioning of survival systems and improving safety standards on your vessels. Our Lifeboat Davit & Winch Services Include:

■ PERIODIC INPSECTIONS

Our team of qualified and experienced personnel provide annual and 5 yearly inspection, maintenance services at short notice, 24/7, in accordance to IMO 1206/rev.1.

LOAD TEST

EFE MARINE SAFETY

EFE MARINE SAFETY is capable of making dynamic - static load test for;

- Lifeboat / Rescue Boat Davits
- Freefall Davits
- Provision Cranes
- Cargo Cranes
- Load Measurement for All Kinds of Equipments

- We test your cranes by using DOOWIN maker water weight bags.
- We have the water weights capacity from 0 – 100 Tons.
- We measure the weight by special wireless calibrated dynamometers.

❖ EFE MARINE SAFETY is approved from most of the IACS member classifications.

LIFERAFT

EFE MARINE SAFETY

Every inflatable liferaft should be serviced at intervals 12 months at an approved service station, which is competent to service them, maintains proper servicing facilities and uses only properly trained and certified personnel.

■ INFLATION & PRESSURE TEST

Our service team conducting necessary valve pressure checks after inflating the liferaft at the service station.

■ DL LIFERAFT SUSPENSION TEST

Our technicians conducting an overload suspension test on davitlaunched liferafts during its periodic servicing, as per manufacturer's guidelines.

■ CONTAINER REPAIRS & PAINTING

Our FRP experts can repair most damages on liferaft containers at short notice and with quick turnaround time.

FIRE FIGHTING

EFE MARINE SAFETY

As per guidelines provided by the IMO and flag state administrations, fire protection systems and appliances should be serviced examined and tested periodically by an authorized facility acceptable by the ship's classification society.

It is imperative to ensure fire safety equipments are available for immediate use while the ship or offshore installation is in service.

■ FIXED CO₂ SYSTEMS

We offer complete inspection of CO₂ fixed systems. Our service includes, level check of cylinders, release systems, distribution lines, manifold, main valve overhaul, alarms and functional testing.

■ PORTABLE & NON-PORTABLE FIRE EXTINGUISHERS

All types of portable & non-portable fire extinguishers, (foam, dry powder, CO₂, Water, Fm200 etc.) are to be periodically serviced by a competent service company as per SOLAS regulation. Inspection, repair and hydro test services are available.

■ FIXED FOAM SYSTEMS

Our service includes, foam sample laboratory analysis, inspection of foam monitors, branch pipes, foam tank, foam pumps, lines and nozzles, additionally renewing of all types of foam.
